## Visually Edited Data Items - 2016

The list of visually edited data items for 2016 has been posted to the CCR web site. Click [here](#) to access.

Discrepancies will be counted in Accuracy Rates beginning July 1, 2016. Feedback only will be provided through 12/31/2016 for the following new visually edited data items: Tumor Size Clinical, Tumor Size Pathological, Tumor Size Summary, Mets at Diagnosis (Bone, Brain, Distant LN, Liver, Lung, Other), Rx Summ-Surgical Margins. Reporting facilities will continue to receive visual editing discrepancy and accuracy reports as per standard regional procedure.
