SEER - Hematopoietic & Lymphoid Neoplasm Coding Manual and Database
For Cases Diagnosed 1/1/2010 and Forward

The newest version of the Hematopoietic & Lymphoid Neoplasm Coding Manual and Database has been posted on the SEER website. Both the manual and database have some changes. There is a user's guide for the database and also a webpage that highlights the major changes.

Both the database and the manual are effective for cases diagnosed 1/1/2010 and forward. The previous manuals and databases are no longer available.

Website: <http://www.seer.cancer.gov/tools/heme/>

List of major changes: <http://www.seer.cancer.gov/tools/heme/update.html>

If you have any questions regarding the changes, please submit your questions to Ask a SEER Registrar <http://www.seer.cancer.gov/registrars/contact.html>
