### ANNOUNCING: The Release of SEER\*Educate

The CCR is pleased and excited to announce the release of SEER\*Educate. SEER\*Educate is an exciting new web-based learning experience for cancer registry professionals that uses real-life case scenarios to learn coding guidelines. SEER\*Educate also tests your knowledge of medical terminology, statistics, and ACoS standards, among other things. The program also offers CEU for registrars and since the system is free to access and use, that means there are free CEU's to be earned for using the system.

To learn more about SEER\*Educate, please refer to the two attached documents or visit the SEER\*Educate webpage at <https://educate.fhcrc.org/>
