

CALIFORNIA CANCER REGISTRY DATA STANDARDS AND QUALITY CONTROL UNIT

2010 DATA CHANGES ALERT

Abstracting Cases Diagnosed Prior to 2010, First Seen at a Reporting Facility in 2010

Cases diagnosed prior to 2010, but first seen at a reporting facility in 2010 should be abstracted in the current software (NAACCR 11.3 format, using CSv1). Registrars are encouraged to identify, abstract, and submit these cases prior to installing their new 2010 software.

This is only applicable until the installation of the CSv2 software. After installation of the CSv2 software, registrars must complete the new data items for cases diagnosed after 2004.
