

CALIFORNIA CANCER REGISTRY
Additions and Changes for 2009 Data Items

This document includes additions (new data items) and changes to existing data items for 2009. The first part of this document (PART I) lists new data items. The second part (PART II) of this document lists revised data items.

Part I – Proposed Data Items

NAACCR Item # (if applicable)	Data Item	Description and Codes
193	Race - NAPIIA	<p>NAPIIA stands for NAACCR Asian and Pacific Islander Identification Algorithm. Race--NAPIIA recodes some single-race cases with a Race 1 [160] code of 96 to a more specific Asian race category, based on an algorithm that makes use of the birthplace and name fields (first, last, and maiden names). For single-race cases with Race 1 other than 96, it returns Race 1. Multiple-race cases (those with information in Race 2 through Race 5, [161-164]) are handled variously; refer to the technical documentation for specifics: http://www.naacrr.org/filesystem/pdf/NAPIIA%20v1.1%2007032008.pdf</p> <p><i>The CCR will be generating this value by examining the primary last name, all alias last names, all maiden names, and DC fathers surnames.</i></p>
		<p>Rationale The use of more specific Asian and Pacific Islander codes will enhance surveillance and research activities focused on specific API subgroups</p>
		<p>Position in NAACCR Format (CCR Volume II): #236-237</p>
		<p>Field length: 2 characters</p>
		<p>Level: Patients</p>
		<p>Codes (<i>same as Race Codes</i>)</p>
		<p>01 White</p>
		<p>02 Black</p>
		<p>03 American Indian, Aleutian, or Eskimo (includes all indigenous populations of the Western hemisphere)</p>
		<p>04 Chinese</p>
		<p>05 Japanese</p>
		<p>06 Filipino</p>
		<p>07 Hawaiian</p>
		<p>08 Korean</p>
		<p>09 Asian Indian, Pakistani</p>

	10 Vietnamese
	11 Laotian
	12 Hmong
	13 Kampuchean
	14 Thai
	20 Micronesian, NOS
	21 Chamorran
	22 Guamanian, NOS
	25 Polynesian, NOS
	26 Tahitian
	27 Samoan
	28 Tongan
	30 Melanesian, NOS
	31 Fiji Islander
	32 New Guinean
	96 Other Asian, including Asian, NOS and Oriental, NOS
	97 Pacific Islander, NOS
	98 Other
	99 Unknown
	Blank Algorithm was not run
	<i>Note: Codes 20-97 were adopted for use effective with 1991 diagnoses. Code 14 was adopted for use effective with 1994 diagnoses.</i>

Part II – Revised Data Items

NAACCR Item # (if applicable)	Data Item	Description
	DC_Birth_Place	State or country of the patient's birth as stated on the death certificate
		Revision: <i>Changes from a 2 character field to a 3 character field. Left justified with trailing blanks.</i>
		Field Length: 3
		Note: <i>Changes field length to 3 in Eureka Passive Follow-up Input Record Format, Appendix 24 in Volume III.</i>

191	NHIA Derived Hispanic Origin	<p>NHIA Version 2.1 minor changes: Generated algorithm. Cases coded as Hispanic NOS (value 6) may now be coded to a more specific Hispanic group based on birthplace. Previously, this was only true of cases coded as 0, 7 or 9.</p> <p>The IHS link variable (item number 192) is required for the algorithm, and cases where IHS=1 are excluded from NHIA. This is because American Indians/Alaska Natives are excluded from NHIA by rule.</p> <p>Version 2.1 http://www.naacr.org/filesystem/pdf/NHIA%20v2.1%2007312008.pdf</p>
