

Selected Cancer Facts-Orange County

October 2011

This fact sheet is provided by the California Cancer Registry (CCR) of the California Department of Public Health to show the impact of cancer on California residents. The CCR is California's population-based cancer surveillance system, and it collects information on almost all cancers diagnosed in the state. This information helps to further our understanding of cancer and is used to develop strategies and policies for its prevention, treatment, and control.

Demographic Population Projections

Orange County Population by Race/Ethnicity (2008)

Source: National Center for Health Statistics, 2008
Prepared by the California Department of Public Health, Cancer Surveillance Section.

Orange County Estimated Number of New Cancer Cases and Deaths - 2011 (Major Sites)

	Cases	Deaths
Breast	2,025	330
Prostate	1,410	215
