CTR Guide to Coding Radiation Therapy in the STORE

Just in case no one told you....

The Commission on Cancer Radiation Oncology Working Group recently released the “**CTR Guide to Coding Radiation Therapy Treatment in the STORE**”, version 1.0 to aid registrars in the coding of the 31 Radiation Data items defined in STORE. This is an excellent summary document which has been prepared as a platform for “learning by example” with clinical examples provided. We hope you find this another useful tool to add to your 2018 Data Changes toolbox!

The document is located at the Corner STORE on the CoC website at: <https://www.facs.org/quality-programs/cancer/news/corner-store-032819>
