

Changes for V3, July* 2015

Changes in this section occurred as part of the Eureka 14.1 release

MODIFIED DATA ITEMS

Data Item Name	Modification
Class Of Case	Clarified Class of Case code descriptions to match NAACCR.
County at DX	Updated description to match NAACCR.
Grade	Updated SOURCE logic to include 2015 conversions when Coding Procedure is less than 32. Note: Not implemented in Eureka yet.
Over-ride SeqNo-DxConf	Removed Over-ride SeqNo/DxConf from Admission level. Flag is used for Sequence Number--Central at the Tumor level only. Note: Not implemented in Eureka yet.
Pediatric Staging System	Corrected listed allowable values to include code 16.
SEER Summary Stage 1977	Corrected labels to match NAACCR descriptions.
SEER Summary Stage 2000	Corrected labels to match NAACCR descriptions.
Sequence Number--Central	Revised SOURCE logic to reference UC 02.08.01.01 Consolidate Sequence Number – Central instead of Appendix 27. Appendix 27 was duplicate of UC and has been removed from Volume III. UPDATE logic revised to document that Manual Change is needed at Tumor Level.

NEW EDITS

Interfield Edits	Description of Change
IF1141: CS SSF 8, SSF 10,	Per NAACCR v15, new

Grade, Prostate (SEER)	edit added.
------------------------	-------------

MODIFIED EDITS

Interfield Edits	Description of Change
IF761 RX Date--Radiation, Rad--Location of RX	Added logic for Flags of 10, 12, 15, and blank values. Note this edit only differs from CoC version because of Year of Diagnosis requirements.
IF1045 Place of Death--Country, Vital Status	Added California specific edit revision to verify that when Place of Death--Country is blank, then Vital Status must = 1 (alive).

APPENDICES

Appendix	Description of Change
Appendix 27 Sequence Number - Central Consolidation Rules	Deleted Appendix. Logic documented in UC 02.08.01.01 Consolidate Sequence Number – Central instead.

*Eureka implementation date documented for individual pages.
