MODIFIED EDITS

Interfield Edits	Description of Change
IF351 Reason for No	Edit logic corrected in

Surgery, Surg Summ 98-02	metafile. Date of Diagnosis parameters revised to match SEER and meet the new business requirements of this edit. Only maintained logic for verifying coding when Reason for No Surgery = 0, or RX Summ Surg Site 98-02 = 10 - 90. Edit name changed from "Reason No Surgery, Surg Summ 98-02" to "Reason for No Surgery, RX Summ Sur 98-02" to match data field names.
IF397 RX Summ-- Radiation, Reason for No Radiation, Type of Reporting Source	Edit Logic revised to reflect that "Diagnosed at Autopsy" moved to Code 1 for Reason for No Radiation.
IF398 Type of Reporting Source, Reason No Rad	Edit Logic revised to reflect that "Diagnosed at Autopsy" moved to Code 1 for Reason for No Radiation.
IF767 Non-Reportable Skin and Benign/Borderline Tumors	Corrected reportability for Primary Site C720 effective with Date of Diagnosis 2001 and forward. Removed Borderline Ovarian tumor logic because the following histologies went from malignant to benign with the ICD-O-2 to ICD-O-3 conversions in 2001: 8442, 8451, 8462, 8472, 8473.
IF1121 Comorbid/Complication 1 - 10	Edit implemented as part of Eureka 13.1 release.
Interrecord Edits	Description of Change
IR805 Bladder Tumors with Same Histology and Behavior	Edit was removed in 2010 due to logic for handling unknown dates needing to

	be revised. Revised edit logic to properly compare Histology Type ICD-O-3 and Behavior ICD-O-3. Added papillary carcinoma into Histologic Type ICD-O-3 inclusions.
IR808 Multiple Hosps in Tumor Record 1-10	Edit was removed in 2010. Edit logic revised to match specification of excluding appropriate non-hospital codes. Added logic to verify that Accession Number--Hosp must be unique within a tumor record set.
IR812 Seq Numbers-Cent, Date Dx	Edit was removed in 2010 due to logic for handling unknown dates needing to be revised. Revised range groups to exclude unknown Sequence Number--Central codes. Clarified date comparison specs.

DELETED/RETIRED EDITS

Interecord Edits	Description of Change
IR806 Ovarian Tumors with Same Histology	Edit was made inactive and removed from appropriate edit sets because logic for handling unknown dates needed to be revised in 2010. Determined this edit should not be updated and Volume III documentation updated to match this edit is currently retired.

*Eureka implementation date documented on individual pages.
