

Quality Control Unit Data Alert – Registrar 2021-18 Visually Edited Data Items for 2021 Data Changes and Updates to 2021 Volumes

The California Cancer Registry (CCR) has prepared and posted the list of 2021 [Visually Edited Data Items](#) for 2021 Data Changes to the CCR website.

In preparing the Visually Edited list above, the CCR found inconsistencies in the requirement status of a few SSDIs. The modifications to Volume I, Appendix R and Volume II, Appendix A are noted below.

Volume I, Appendix R:

- The following SSDIs were updated from 2018+ CoC Facilities ONLY to 2018-2020 CoC Facilities ONLY
 - HER2 IHC Summary
 - HER2 ISH Dual Probe Copy Number
 - HER2 ISH Dual Probe Ration
 - HER2 ISH Single Probe Copy Number
 - HER2 ISH Summary
- Removed the first to bullets in Coding Instructions for coding XX.8 and XX.9 because edits have been implemented rendering the instruction no longer valid.

Volume II, Appendix A: New Case and Modified Record tab

- HER2 IHC Summary from DX Year 2018-2021 to DX Year 2018-2020.
- HIV Status from Required, Site Specific for DX Year 2018 forward to Site Specific DX Years 2018-2020.
