Data Alert – Registrar 2021-24

Visually Edited Data Items Lists by Diagnosis Year

The California Cancer Registry (CCR) has prepared PDF versions of Visually Edited Data Items by diagnosis year groupings. The CCR hopes registrars will find these lists more user friendly to review which data items are currently visually edited vs. those visually edited in past years. The Visual Editing lists available by diagnosis years groups are as follows:

- Visually Edited Data Items List 2018-2021
- Visually Edited Data Items List 2015-2017
- Visually Edited Data Items List 2010-2014
- Visually Edited Data Items List 2002-2009

The Visually Edited Data Items Appendices in Excel format remains available for those who wish to review a consolidated single version of all visually edited items by diagnosis years 2002-2021.

The documentation listed above is located on our website www.ccrca.org Data Standards and Reporting/Cancer Registrars, Hospitals, and Facilities/ Registrar Resources and Reporting/ Visually Edited Data / under [Visual Editing Standards](#).
