

Quality Control Unit
Data Alert – Registrar 2022-03
Do NOT Transmit 2022 Cases

Do not transmit 2022 cases until you have been notified by the CCR that we are ready to receive 2022 cases and your software vendor has upgraded to v22.

*Cases diagnosed prior to 2022, but first seen in 2022 can be set to complete and transmitted in the current v21 software.

NOTE: Cases diagnosed in 2022 that are transmitted in a previous record layout version (i.e. v21) will be REJECTED by Eureka.
