

Quality Control Unit Data Alert – Registrar 2022-09 SEER Education Spring Update

◆ **New Coding Practice Modules for Dx Year 2022**

- Ten additional sites (anus, corpus uteri, esophagus, Hodgkin/NHL, kidney, liver, NETs, ovary, pancreas, thyroid) have been released in the bite-size “Mash-Up” series which provides EOD, Summary Stage, Grade and SSDI coding practice for both new and experienced CTRs. All primary sites in this series qualify for Category A CES approved by NCRA.
 - Primary site, histology and behavior are pre-populated to ensure correct data items are retrieved from SEER*RSA.

◆ **2022 Existing exercises updated to match updates to various manuals.**

- Review the complete [SEER Spring Update pdf](#) announcement.

◆ **Free 2022 Virtual SEER Workshop-Advanced Topics for Registry Professionals is being held July 19-21, 2022.**

- *SEER will be sending a separate notification regarding registration for the SEER Workshop.*
- Topics include Lung and NET cases (5 each) involving EOD, Summary Stage, Grade and SSDI data items.
- Workshop exercises now available in SEER*Educate. **Workshop Participants should complete coding exercises by June 15th.**
- Note: All are welcome to complete the SEER workshop cases even if you do not plan to attend the workshop!
