Data Alert – Registrar 2022-010
Reporting Timeliness Requirement Reinstated

This is a reminder the reporting timeliness requirement was reinstated effective May 1, 2022, for 2021 cases.

- All 2021 cases, with a date of first contact in 2021, are expected to be submitted and received by June 30, 2022.
- If your facility is unable to meet the timeliness requirement please contact your Regional registry immediately for discussion and direction.

As a reminder, cases diagnosed prior to 2022, but first seen in 2022 continue to have timeliness requirements and are expected to be submitted and received within 6 months of date of first contact.
