In order to align with Standard Setter's, a decision was made to not include the 3 date/time data fields "Date Time Case First Exported", "Date Time Case Last Changed", "Date Time Modified Record Last Exported" into [CA XML User Dictionary](#). Therefore, it was decided to repost the v1 versions of the [2024 CA XML User Dictionary](#) files to the CCR website.

IMPORTANT: *ONLY ACCESS* this file form the [CCR Website](#).

NOTE: The 2023 versions of these files can still be accessed from the [CCR Website](#); Standards and Reporting, Cancer Registrars; Hospitals, and Facilities; Reporting by Cancer Registries; Volumes I-V. The new 2024 versions have also been posted under Volume II – 2024.
